SUMMARY

Highly motivated Backend Developer with hands-on experience in building web applications using Spring Boot and React. Proficient in designing and developing RESTful APIs and integrating them with front-end systems for seamless user experiences. Demonstrates strong problem-solving abilities.

EDUCATION

Yeshwantrao Chavan College of Engineering <i>Bachelor of Technology in Computer Technology</i>	2022 - 2026
Decent Junior College <i>Higher Secondary Education</i>	2022
St Vincent Pallotti School <i>Senior Secondary Education</i>	2020

SKILLS

Programming & Query Languages: Java, C++, SQL

Frameworks & Libraries: Spring Boot, React

DBMS & Tools : MySQL, Postman, Maven, Github

PROJECTS

TASK MANAGEMENT APPLICATION

- Developed a web application using **Spring Boot** and **React** enabling managers to assign tasks to employees.
- Implemented **JWT**-based authentication using **Spring Security** to protect **REST API** endpoints, ensuring secure access control.
- Developed **RESTful APIs** for task viewing, sign-up, sign-in and integrating them with a **MySQL** database.
- Structured the backend using clean architecture (Controller-Service-Repository) and managed the project using **Maven** and **Github**.

LAPAROSCOPIC ORGAN CLASSIFICATION MODEL

- Built a high-accuracy **98%** organ classification model using **ResNet18** on laparoscopic surgical data.
- Converted a segmentation-based dataset of **4,000+ images** into a classification dataset.
- Applied extensive data augmentation and preprocessing techniques using **PyTorch** transforms.
- Built training and evaluation pipelines with GPU support and logging, enabling smooth handling of datasets with **5GB+** of surgical images.

REAL-TIME CHAT APPLICATION

- Implemented message routing with **@MessageMapping** and **@SendTo**, enabling instant group chat functionality.
- Designed a session-based system to track active users by storing attributes in **WebSocket** headers.
- Built frontend integration with **SockJS** and **STOMP** client to deliver live chat updates on message events.

EXTRACURRICULAR ACTIVITIES

- Led project team, demonstrating strong leadership skills, effective coordination, and timely delivery of outcomes.
- Captained the departmental cricket team, fostering teamwork, strategy, and collaboration to achieve collective goals.
